As a general contractor, Century Paving, Inc. has been performing both public and private works projects in the area of asphalt and concrete maintenance and repair since 1974. They have Southern California office in La Mirada, California, with an additional sister office in Northern California. Century Paving recently took delivery of a brand new Hamm HD 13 articulated tandem roller, which they purchased from Nixon-Egli Equipment Co.

Robert Jarvis, Vice President, Century Paving, Inc. comments, "We were in the market for a new compact roller to replace one of our ageing units. The Hamm HD 13 drew our attention with its Interim Tier 4 engine. In addition, we did our research and found that the Hamm was a very well made machine, with a reputation for providing a longer shelf life and that is important to us. Our research also found data that supports the fact that the Hamm HD 13 actually achieves more compaction when compared to the competition. Our new Hamm roller machine is the perfect size for both our thick and thin lift paving projects. It was an easy decision to go with Hamm and Nixon-Egli Equipment Co."

Robert adds, "We've been doing business with Nixon-Egli Equipment Co. for many years, so we know and trust them. We worked on this purchase with Jack Rogers who is extremely knowledgeable about equipment and our industry. James Nixon helped us finish up the sale and insured that everything went smoothly. Our company is a proud member of the Asphalt Pavement Association of California and Nixon-Egli Equipment has also been a member for many years. Their interest in our industry goes beyond the sale and their dedication and continued visibility in the asphalt business is what we are looking for in an equipment dealer. They have a branch in both Northern and Southern California to meet both of our companies needs. We enjoy doing business with companies that share our business ideals and Nixon-Egli Equipment Co. does just that."

NIXON-EGLI EQUIPMENT CO.

California's Largest General Line Construction and Municipal Equipment Dealer.
